## Our Capability Statement

Since 2009, Alliance Pointe has provided functional financial management and technical program management services for federal government agencies. We excel at integrating our **knowledge of DoD ERP systems, acquisition and program management practices** with the disciplines of Strategic Planning, Governance, Program Management, Business Transformation, Process Improvement, Organizational Change Management, and Enterprise Performance & Risk Management. Our broad-spectrum expertise enables us to build teams and organizations that deliver results—even in complex circumstances.

We are a **HUBZone** Certified, Woman-Owned Small Business (**WOSB**). Our strengths include our proven ability to strategically plan and tactically implement plans that drive change across an enterprise, and our demonstrated capacity to create, support and sustain enterprise management practices for large federal organizations.

## Why We Are Different

- We have developed and implemented **enterprise strategies and plans** for four federal agencies.
- We have designed, developed, implemented and/or sustained **enterprise management practices** for nine federal agencies.
- We have provided **oversight and guidance** support services for seven enterprise (ERP) technology deployment programs.
- We have provided **governance, risk management, organizational change and program management** services for seven enterprise programs across all program lifecycle phases.
- We have **facilitated and hosted countless workshops** to support program implementations, process improvements and requirements gathering efforts.

## Call Alliance Pointe if...

- You need to **develop and implement effective outreach programs** and provide **program implementation support**.
- Your team requires **program management and technical support** to plan, coordinate, implement and orchestrate **responses to legislative mandates**.
- You need to **design, develop and implement new approaches, processes and procedures** in support of changing mission requirements.
- Stakeholder management, program management and operational **complexities have become barriers to program success**.
- You want to **develop best practice enterprise program management capabilities** in your organization.
- Your team is looking for an **independent assessment of compliance** with legislative mandates.
